Among the Legion's activities are included the organization of the township into 17 air raid zones in which Legion men have charge except in two; the forming of the pistol and rifle range; the setting up of air observation posts, which are now being manned by the Antioch Lions club; contributions and services to the Red Cross, war bond and stamp campaign; collection of old music records in which they exceeded their quota; aid in the selective service registration.

Besides these activities the Legion keeps a record file of all local boys in service in world war two, and they go 50-50 with the Antioch News in the expense of mailing copies of the paper to boys in service. There are also other activities of lesser importance that are performed by members of the Antioch Legion post.

Auxiliary Has Busy Year

While the Legion had an outstanding year of service, the Legion Auxiliary also had a busy year and had a hand in many of the services rendered by the Legion men.

Civil Defense Workers to Meet Wednesday Night

Air Raid Wardens Seek to Effect Complete Organization Here

Complete organization of the Antioch Township Civil Defense committee workers will be sought at a community-wide meeting set for next Wednesday night at 8 o'clock at the Antioch Township High school auditorium, Civil Defense Co-ordinator Roman B. Vos announced today.

All air raid wardens, auxiliary police, observation wardens, firemen, and first aid men and women are expected to attend and the general public is invited and urged to be present.

Notices sent to zone air wardens make request that they select one more person in their respective districts to act as fire watchers. It has been pointed out by the county civil defense committee that this is of utmost importance in all localities.

There will be moving pictures of defense activities and qualified speakers have been engaged for the meeting.

DELINQUENT TAX LISTS PUBLISHED

Delinquent tax lists for the townships of Antioch and Lake Villa appear in this edition of the News.

Taxes on some of the lands listed have not been paid since 1910, and there are a few owners of property that are unknown to the tax collector.

The county treasurer will apply to the county court on Monday, Sept. 28, for judgment against the lands and lots mentioned in the delinquent roll for the taxes due, together with interest, penalties and costs.

On October 12, the lands and lots will be exposed for sale at the court house in Waukegan. The sale will begin at 9 a.m. and will continue from day to day until the sales are completed.

WEEKLY NEWS ANALYSIS

Battle of Egypt Gains New Momentum As British, U. S. Planes Blast Rommel; Jap War Minister Given New Power; Total Farm Crop Reaches Record High

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Released by Western Newspaper Union.

Japan's great pincer movement, which was aimed at Hawaii, appeared to be effective until the United States marines took Jap bases in the Solomons, thus breaking the lower prong. This failure has been emphasized further by Japanese defeats in Milne bay, on the tip of New Guinea.

DESERT WAR: With Tanks, Planes

As British and German tanks continued their bitter struggle on a 20-mile desert front in Egypt, American bombers joined the Royal Air Force in carrying out almost continuous operations against Nazi concentrations.

Reinforced and rested after a two months' halt, Marshal Erwin Rommel's army started its advance in the rolling, rocky area between the Ruweisat ridge in the center and Himeimat peak, on the southern wing near the Qattara depression.

Rommel's major effort was at the southern hinge of the British line, where troops were taking the brunt of the attack. War bulletins issued jointly by the headquarters and the RAF, said U. S. army air force planes participated in extensive operations over the entire area where the Nazis were trying to smash toward Alexandria, the Nile and the Suez canal.

Dispatches from the front noted that the moon was favorable for night fighting and that the weather was much cooler than the 100 degree temperature during the early summer.

TOGO TO TOJO: Fourth Portfolio

When Japanese Foreign Minister Shigenori Togo resigned his position for "personal reasons," the Japanese cabinet virtually eliminated the one strong man regarded as being opposed to hostilities against Russia. Togo negotiated the Moscow-Tokyo neutrality pact.

Togo's post was taken over by Gen. Eiki Tojo, who now holds four portfolios in the cabinet—prime minister, minister of home affairs and foreign minister. The "strong man" of Japan, Tojo was a

Premier Togo Minister Togo

staunch advocate of the Axis pact and of Japan's "new order" in the Orient. His present four posts concentrate in one man almost absolute powers over his people.

Anticipating close scrutiny by official Russian sources, Tojo declared that his assumption of the foreign ministry "will not result in any way in an alteration of Japan's foreign policy." However, Togo's resignation, plus Tojo's decision to take over the foreign portfolio, was widely interpreted as presaging a sneak attack on Russia. Information reaching Chunking said that 100,000 Japanese troops—totaling five divisions—had been sent north from the Chinese theater of war.

Supporting this theory, Lieut. Gen. Joseph W. Stillwell, United States commander in chief in India, China and Burma, announced that there is a "good chance" the Japs would attack Siberia.

HIGHLIGHTS . . . in the week's news

ARMY: The duke of Windsor has announced the formation of a Bahamian defense force, the first full-time military unit in the island in more than a century.

BIGGEST: Roosevelt base in California—which the navy terms the largest operating base in the world—has been commissioned on land reclaimed from Los Angeles harbor.

REPLACED: Dr. Hu Shih, Chinese ambassador to the United States for the past 12 years, has been recalled by his government and will be succeeded by Wei Tao Ming, former ambassador to Vichy.

CONSPIRATOR: Convicted of conspiracy to serve Germany as a spy, Herbert K. F. Bahr was sentenced to serve 30 years in prison by a federal judge in New Jersey.

WHERE'S OUR NAVY?: Secretary Knox Reports

In his first press conference in almost five months Secretary of the Navy Frank Knox came up with some information on activities in the U. S. navy.

He pointed out that all officers over 57 years of age were being subjected to a rigid physical examination as part of the navy's effort to weed out all officers except those in perfect condition.

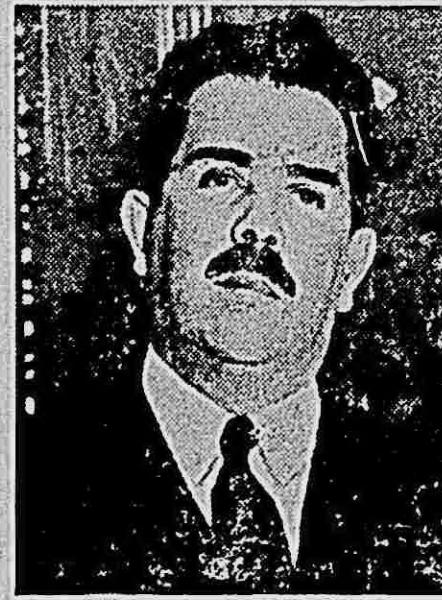

While he doesn't believe the submarine menace off the Atlantic coast to be solved he did say that he believed the decline in sinkings could partly be credited to the fact that "we've made it tough for them." U-boats, he said, have shifted their activity to other sectors.

Other naval developments of interest revealed at the conference were (1) the ship-building program is ahead of schedule in all categories; (2) naval air officers will be promoted faster than others to "completely answer" criticism that the air arm of the navy has not been getting a good break in important high command decisions; (3) the attack on the Solomons was the "largest amphibious operation we ever undertook" and was successful in obtaining all immediate objectives; (4) in the Aleutian islands, the record "speaks for itself." (Here Secretary Knox was no doubt referring to the record of 19 enemy ships sunk or damaged since the Japs seized the westernmost tip of the island chain.)

MEXICAN WAR CHIEF: Cardenas Gets Job

Mexico's increased participation in the war effort was emphasized when President Manuel Avila Camacho appointed his predecessor in the presidency, Gen. Lazaro Cardenas, as minister of national defense.

The appointment of Cardenas, who succeeds Gen. Pablo Valenzuela, was looked upon as the initial move toward expansion of the army, navy and air force. Early reports predicted that the navy as well as the army and air force, would be

put under the defense ministry, thus making him second in command.

In his annual message to congress, President Camacho declared that Mexico is in the war until "a peace worthy of our living it" has been achieved. He added that Mexico will not make a separate armistice or peace.

DRAFT: Puzzle

Selective Service Director Brig. Gen. Lewis Hershey had informed state draft officials to regulate quotas to individual boards so that married men would not be drafted in one locality before those in another. Then came the next problem: When would married men be called? When would it be necessary to take youths of 18 and 19 years of age into the army?

Efforts were being made to force a congressional vote on the latter issue before the November elections but most observers thought this unlikely. That such a vote would come soon after these elections appeared certain however.

Chairman Andrew Jackson May (Derm., Ky.) of the house military affairs committee declared that when and if married men with children are called the war would be about 18 months older, or they might not be taken at all." He released figures which he said were furnished by the national selective service headquarters indicating a nine million man pool available in advance of drafting registrants with dependent wives and children.

FUEL OIL: To Be Rationed

Fears of midwest petroleum distributors were realized when Donald M. Nelson, chairman of the War Production board, confirmed reports that fuel oil will be rationed and that rationing may be imposed upon some midwestern states as well as the East.

Rationing would be extended to the Midwest in order to make additional railroad tank cars available to supply the eastern market.

At his press conference President Roosevelt mentioned 25 per cent as the likely amount of curtailment in some areas. Those areas were not specified.

Initial reports indicated that a basic ration would permit heating to an average temperature of approximately 68 degrees, with additional rations to be issued on the basis of need. Full details of the plan will be ironed out by WPB officials.

Oxygen in Lakes to Be Studied

A study of the oxygen content of Wisconsin lakes is expected to save the state thousands of dollars by guiding conservation and propagation of game fish.

Shortest Railroad

One of the world's shortest railroads is the Chicago Short Line, operating ten engines, 53 freight cars and a caboose on 1.12 miles of track in the steel mill district.

Sick Soils Have Effect on Animals

Earth Should Be 'Factories,' Not Mines

By DR. WILLIAM A. ALBRECHT
(Department of Soils, College of Agriculture, University of Missouri.)

That sick soils will not build healthy animals any more than they will produce sturdy field crops is significant in view of our national tendency to combat soil erosion by allowing much of the fertility-depleted soil to go back to grass.

In place of giving attention to soil fertility measures that feed growing plants, we have too often adopted the practice of "crop hunting" in the mistaken belief that when one crop starves another can be found that will thrive on the same depleted land. But we can't breed crops against starvation any more than a sterile parent can transmit the character of sterility.

Evidences of declining soil fertility are seen in the greater number of deficiency diseases among our farm animals. Veterinarians are constantly faced with increasing cases of strange animal ailments for which no specific body weakness or visible physiological cause can be found. Eye ailments, a tendency to blindness, bad gaits, rounded back lines, inferior condition, poor feeding progress, and even death and death can be traced to deficiencies in animals' nutrition.

If newer legumes or non-legumes grow more successfully on less fertile land, then such crops must be taking less nutrient from the soil. Thus these crops can offer the animals that feed on them less of protein and of ash which, for animals the same as for plants, are the items drawn from the soil.

Animals Limited in Feeding.

Confined as they are, animals are limited in their feeding by the soil fertility of the farm. Supplements such as protein contain too little of the minerals needed. And when animals protest by rooting up the very earth or climbing the fence in search of better forage, such actions are met by rings in the nose or cumbersome yokes about the neck. Human serfs have been prohibited in this country for about 75 years, but animal slaves can be seen on any trip through the country. Too often they are almost in a state of starvation because their master, the farm owner, neglects his soil fertility.

Our soils must become factories instead of continuing as mines from which the fertility is unendingly drawn. Raw materials such as limestone, phosphorus, potash, and other fertilizing elements, organic matter and other plant nutrients must go back into the soil. In our "soil factories" we must produce more usable nutrients for plant service. Such nutrients must not be hauled off unless equal amounts are restored.

Consumption of Fats, Oils

Recently the United States used approximately 61/2 billion pounds of fats and oils in edible products; two billion in soaps, one billion in paints, varnishes, printing inks and linoleum products, and 0.5 billion was used for a variety of industrial purposes.

Cutting Costs

The department of agriculture is strongly urging partnership in use and purchase of equipment.

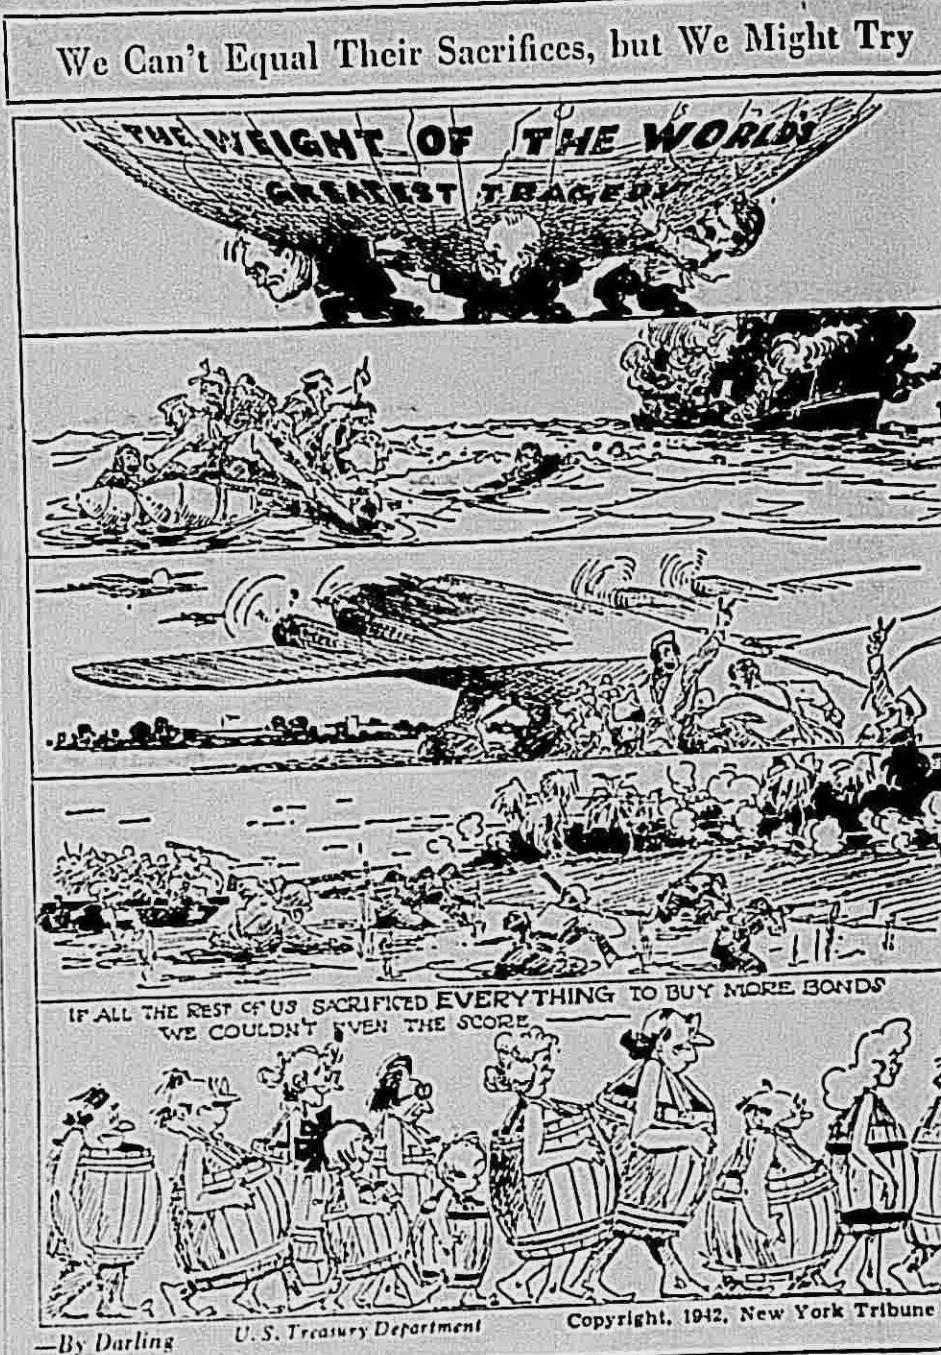

Two Floyd County, Texas, farmers have been showing their neighbors the value of this kind of joint action. These Farm Security administration borrowers first bought a tractor outfit together in 1930. Sharing the \$1,030 outlay and the operating expenses proved to them the advantages of partnership.

Their second enterprise was buying a pure-bred Jersey bull, which cost \$140. Then they bought a seven-foot power-take-off mower, a feed mill mounted for transport, and a ground-driven row binder.

The two farmers say that the machinery they joined in buying saved their crops last fall. They figure that what they did as a common sense plan will have to be done by others from sheer necessity.

Urea for Growing Lambs

Farmers were told of tests in the laboratories of a university's division of animal nutrition in which the performance of growing lambs fed urea was compared with that of lambs fed diets containing such protein sources as soybean oil meal, casein, skim milk and corn gluten feed. With rations of a 12 per cent protein level, 50 per cent of the nitrogen as urea is as satisfactory a source of nitrogen as commonly used protein concentrates.

Mexicans and Music

Music is a passion with the Mexicans, and every town plaza has its bandstand for evening concerts. The marimba is a more primitive instrument than the brasses used in band concerts, but when skillfully played it is exceedingly effective. The wooden sound boxes give resonance to the tones produced by striking strips of hard wood in the same manner as a xylophone.

JOSEPH SOLD INTO SLAVERY

LESSON TEXT—Genesis 37:23-36.
GOLDEN TEXT—Love envith not.—I Corinthians 13:4, R.V.

Does it pay to trust God? Is He really concerned about the affairs of men? Does He know the trials and the heartaches of His children? These are the crying questions of today, and they find their answer in God's dealings with men of the past. The story of Joseph has many interesting and instructive phases, but perhaps the most important just now is the truth of our lesson, "The Lord saith . . . them that honor me I will honor."

We first find Joseph as he learns that

I. Jealousy Bears Bitter Fruit (vv. 23-30).

Joseph was his father's favorite and was shown that favoritism in many ways, but it was perhaps most fully expressed in the coat of many colors. This was a luxurious long robe with sleeves, indicating that he was a gentleman and not to do ordinary work of one who wore the sleeveless, knee-length tunic. His brothers deeply resented this evidence of the father's favor.

The dreams which Joseph rather innocently yet perhaps unwise told to his brothers and his honest report of their wicked behavior fanned the flame of jealousy into a consuming fire which threatened his life. But God, through Joseph's brother Judah and through the opportunity they had to make money out of selling him into slavery, kept him for His own purposes.

May we not learn that the darkest hour may be the time of God's deep interest and directing power. The only way strong men can be developed is by suffering hardness and trial. "God wants iron saints, and since there is no way of imparting iron to the moral nature than by letting His people suffer, He lets them suffer (Heb. 12:11)" (Meyer).

Parents should also learn here the dangers of favoritism among children. It is one of the most destructive of evil influences that can enter a home. It hurts the child who is favored, alienates the other children, and it destroys confidence in parents and respect for their authority. Let's have none of it!

II. Deceit Attempts to Conceal Sin (vv. 31-35).

One of the tragic things about sin is that a wicked act does not stand alone but leads into another sin to cover the first. In the case of Joseph's brethren, their sin against him was covered by deceit. They lied to the father and maintained that lie for years, even though they saw that their aged father was brokenhearted. How callous sin makes the heart of a man!

Yet the very fact that they lied to cover their sin indicates that they were ashamed to admit that they had fallen so low. James Strahan well says: "Evil never dares to be sincere. It always borrows the colors and wears the garb of innocence. It has a whole lifetime of hard labor in keeping up appearances. Hypocrisy is the tribute which all bad men have to pay to the ideal of goodness."

III. God Overrules Evil for Good (v. 36).

It was God's plan that Joseph should come to his greatest usefulness in his place of authority in Egypt, so He directed the sale of the young slave into the home of Potiphar, a leading officer of Pharaoh.

The story of Joseph's life in Potiphar's house is one of unusual interest. Faithfulness to duty, loyalty to God and truth led to shifting experiences of imprisonment and of favor, but ultimately he came out into the place of leadership in the government of Egypt. In this place God marvelously blessed and used him.

Since the matter of the relation of men to government is so much before us these days, it will be well to note that Scripture holds a very exalted view of the public servant. Paul says we are to "be subject unto the higher powers. For there is no power but of God: the powers that be are ordained of God" (Rom. 13:1). The Bible clearly teaches that every governmental agency and every public servant, from the policeman on the beat to the President in the White House, is only permitted to exercise authority over his fellowmen because God has ordained that there should be such government. Clear it is that every right-thinking official of state and nation should be humble, teachable, discreet, and wise in the exercise of his power, and God-fearing in the discharge of his responsibility.

Our lesson provides unusual opportunity for the teaching of proper family relationships, the right attitude toward government, as well as the blessed assurance and confidence which we may have who have intrusted our lives into the hands of God.

WILMOT

Wertz-Ehlert Wedding
At a pretty ceremony held at 8:00 o'clock Saturday evening in the Peace Evangelical Lutheran church at Wilmot, Miss Naydene Alice Wertz, daughter of Mr. and Mrs. William Wertz of Wilmot and Duane Herman Ehlert, son of Mr. and Mrs. John Ehlert of Spring Grove, Ill., were married. Ferns and garden flowers trimmed the altar and formed a background for the wedding.

The Rev. R. P. Otto pastor of the Wilmot church, performed the ceremony, which was open to the many friends of the young couple. An organ recital was played by Mrs. R. P. Otto, and Mrs. Charles Schultz sang "The Lord Is My Shepherd, I'll Not Want," and "Jesus Lead Thou on."

The bride's dress was a misty white mousseline de soie gown over white satin, fashioned with a lace bodice with lace inserts in the skirt and the sleeves gathered with lace into a puffed effect. A sweetheart neckline completed the bodice. Her finger tip veil of sheer illusion, was edged with lace and caught with halo of white velvet flowers. She carried an arm bouquet of white roses.

Miss Arlyne Mae Wertz, sister of the bride, was maid of honor and wore a gown of turquoise blue mousseline de soie, with white velvet flowers forming a sweetheart neckline and huge velvet flowers trimmed the skirt. She carried an arm bouquet of pink roses.

Little Bonny Lee Wertz, niece of the bride and Patricia Ehlert, niece of the groom, were flower girls and each was dressed in floor length pink organdy dresses tied with green velvet bows. They carried colonial bouquets.

Lyde Ehlert, brother of the groom, was best man. The bride's mother was dressed in black crepe with white accessories and wore a corsage of gladioli. The groom's mother was gowned in flowered crepe and also wore a corsage of gladioli.

A supper followed at the Lutheran hall for about 75 relatives and close friends and later the wedding party adjourned to the home of the bride's parents for a reception. A tiered wedding cake and appointments were all in white.

Both young people have been active in church and community affairs.

The bridegroom is employed at the Great Lakes Naval station. The young couple have rented the Freeman apartment and will be at home to their friends after September 9.

Relatives and friends from Fond du Lac, Kenosha, Ringwood, Richmond, Chicago and New London attended the ceremony.

These Select Horses

Hitler found out that his high powered mechanized and motorized army bogged down in the snow and mud of the Russian winter. Although our Army is largely mechanized the cavalry horse is still a highly essential factor in this mounted division and in the Field Artillery. The Army also maintains remount farms where many cavalry horses are bred and raised.

These select horses cost from \$100 to \$165 and our crack cavalrymen are expert riders and carry on the traditions which have followed the cavalry from the earliest days of the Army. Purchase of War Savings Bonds will insure good mounts for the Cavalry. You and your neighbors buying War Bonds and Stamps regularly every pay day can help buy these horses for the U. S. Cavalry. Invest at least 10 percent of your income in War Bonds.

an important fashion in that it is tailored of black bengaline, and it's bengaline that fashion-alert women are clamoring for this season for their best looking suit. You'll be starting your fall wardrobe going in the right direction if you buy a bengaline suit. Suits of this kind take kindly to accents of lovely lace lingerie neckwear and it's also smart to wear accessories which give the vivid touch. The front fullness of this skirt is typically "Autumn 1942" in its styling. The jacket is a newly inspired version which stresses up-to-dateness.

The dresses shown are New York creations which observe all the niceties demanded by discriminating taste. The gown centered in the above picture shows its new-school origin in its slenderness and classic simplicity. The fact that it is made of sleek rayon jersey in a lovely mint-julep green is significant, as they are with utmost simplicity, are ushering in a new era in costume design, one that patriotically makes fabric conservation its theme. Valiantly and victoriously have designers met the challenge to create beautiful fashions out of minimum yardage. Once you've donned one of these figure-flattering narrow silhouetted gowns, suits or coats, as the case may be, you'll be all enthused for the new order of things, for it is a fact that the narrowed silhouette is one of charm and chic.

KUNMING, CHINA.—Here is a war story of an American farm boy. His name was Tom Jones.

He died in an accident near the American volunteer group air field and the United Nations lost an important bit of that courage which pushed the American frontier from the original colonies across a continent to Tom Jones' home state of Washington.

That courage saw Tom through a vital mission in which he helped destroy a Japanese invasion column and through a spectacular raid on Japanese-held Hanoi which he thought up and supervised.

Tom had three main ambitions—to shoot down a dozen Japanese planes in aerial combat; to return to America to his wife and baby, "and nothing will take me from America again."

Full of Fight.

When I first met him at an AVG hostel in southwest China, he was still thin from malaria caught on a tiger hunt in Burma, but he was full of fight.

He married a few weeks before coming out to China a year ago. He said that when he got his dozen Japs he would return to his wife and baby, "and nothing will take me from America again."

He grew restless in the hospital, hearing how the AVG was winning fame while he lay helpless in bed. Weeks before he had recovered fully he wanted to fly.

In April Tom was allowed to do combat flying. In his first dog fight he shot down two Japanese.

"Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, September 6.

The Golden Text was, "The steps of a good man are ordered by the Lord; and he delighteth in his way (Psalms 37: 3)."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Know ye that the Lord he is God; it is he that hath made us, and not we ourselves; we are his people, and the sheep of his pasture" (Psalms 100: 3).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Immortal man was and is God's image or idea, even the infinite expression of infinite Mind, and immortal man is co-existent and co-eternal with that Mind. God, the divine Principle of man, and man in God's likeness are inseparable, harmonious, and eternal. God and man are not the same, but in the order of divine Science, God and man co-exist and are eternal. God is the parent Mind, and man is God's spiritual offspring" (p. 336).

THE TEACHER

"In the scheme of human life the teacher and his system of teaching plays the most important role, carrying with it the heaviest responsibilities and most subtle influences. A teacher is like unto a gardener. Just as a gardener sows the seed and watches carefully over their sprouting, looks after their growth and progression, so also a teacher must watch over the education of the children and inculcate in their young lives the highest ideals of truth and justice."

"By every means at their disposal they must inculcate into their growing bodies, souls, minds and spirits, the principles of sincerity, love, trustworthiness, obedience, true democracy, and kindness toward all races; thus hereafter the world of civilization may flow in one mighty current and the children of the next generation may make secure the foundations of human solidarity and goodwill."

"O my God! O my God! Thou seest these children, branches of the tree of life, birds of the garden of safety, pearls of the shells of the ocean of Thy mercy and roses of the rose-garden of Thy guidance."

"O Lord! Verily we glorify Thy praise, sanctify Thee and supplicate to the Kingdom of Thy mercifulness to make us candles of guidance, stars of the horizon of the Eternal Majesty among the creatures; and teach us from Thy knowledge, O Glory of the Most Glorious!"
